CLASSIFICATION

25X1 - 2 -25X1 25X1 Comment. The report tends to indicate that, prior to 10 September, apparently heavy elements of the 16th Gds Mecz Regt and 93d Tank Fegt and the 95th (?) Mtrcl In, all of the 6th Gds Mecz Div, were at Fad Freienwalde post. It could not clearly be determined whether only a 25X1 field exercise was held by these units on 5 September, or whether the troops were to be exchanged with other units of the division for practice at the Templin troop training grounds, as the number of vehicles 25X1 seen at the installation on 9 September was considerably larger than that seen prior to 5 September. 25X1 confirms the 16th Gds Mecz Regt of the 6th Gds Mecz Div in Bad Freienwalde until 14 July 1953 _confirms the 93d Tank Regt of the 6th Gds Mecz Div in Bad Freienwalde until
